UPPERVILLE, VA., August 18, 1877. Editors Dispatch: The Potomac Association closed its twenty-second annual session here last night. Situated in a splendid country the town of Upperville is proverbial for hospitality, and most sumptuously has this meeting been entertained. Under the direction of the pastor, Rev. J. B. CONSUMPTION OF THE BOWELS.

CHARLESTOWN, MASS., March 25, 1869. Mr. H. R. Stevens:

Dear Sir.—The following is a statement of my experience with the great Blood Remedy, VEGETINE: I have been keeping a boarding-house here for many years, and have had the misfortune to have a great deal of sickness in my family. In one case in particular I noticed: he wonderful effect of VEGETINE.

About the year 1847 a young man, then sixteen years old, who was a distant relative of mine, came home from sca. He had injured his left leg on board the ship some months before; and when the ship came into this port he came to my house, being so feeble that he could not go to his home in Lowell. His leg was swollen above the knee more than twice its natural size, and be was obliged to drag it along after him, having no use of it whatever. The effect of this had reduced him to a mere skeleton. His father came down and employed Dr. George Hayward, of Ecston, to attend him, who then occupied a prominent position in the Massachusetts General Hospital. He promounced it a bad case of Necrosis; said he must be removed to the hospital, have his leg opened and the bone bored, to allow the discharge of matter there collected; otherwise the leg must be amputated.

Not thinking it advisable to pursue this course, and Mr. H. R. Stevens:

of matter there conceted; otherwise the leg most of amputated.

Not thinking it advisable to pursue this course, and having used Vegetine, the great Blood Remedy, in the past with so good effect, esneluded to try it in this case. After taking it regularly for six weeks his leg was but little swollen and his general health so much improved that he did not look like the same person. At the end of five months he went home to Lowell perfectly cured. He remained in Lowell until the commencement of the war, then joined the army, and was pronounced a sound and well man. The above is but one case out of many where I

vigor. One lady-boarder was completely cured from Canwhich was a bad case, and so considered by the many physicians who had attended her from time to

time.
I have known its use by other boarders for Rheu-matism with extraordinary good effect.
A lady took it for Consumption of the Bowels, and found more relief than in anything else she could

procure.

I do not want to over-estimate its usefulness; but I do want those suffering from sickness to know what this good medicine has done and is still doing, for I know what it is to be imposed upon when sick, and I think it is wrong for any one to over-estimate a remedy at the expense of the helpless sick; and I, for one, will not do it under any circumstances do it under any circumstance Mrs. ALIVA S.
